Highly motivated **Front-end Developer** with three years of experience leveraging React, JavaScript, and other advanced technologies to create cutting-edge web applications. My proficiency in these technologies has enabled me to build real-world applications for startups. Proven expertise in troubleshooting, browser-based debugging and performance testing software.

EXPERIENCE

Front-end Developer

Jan 2024 - Present

Freelance, Lagos

- Designed and developed a user-friendly location search system for a private business, which enables customers to easily search for distributors located nearest to them. Leveraged advanced Excel sheets as the database, which efficiently queries data for all the different features and sections of the application.
- Collaborated to develop an event management application for a startup overseeing the authentication and authorization of users. Implemented password-less sign-in option feature using Firebase auth service.
- Contributed to the creation of a dosage reminder system for the Nigerian health sector during the 2024 Cavista Hackathon, responsible for user interface development and database operations.

Front-end Developer- Intern

Mar 2023 - Jul 2023

Yaba college of technology, Lagos, Yaba

- Improved the user experience of the school's transcript request section by implementing a modern and intuitive user interface using just html and css.
- Collaborated with a team to streamline the transcript request process, resulting in positive stakeholder feedback and enhanced user satisfaction
- I acquired proficiency in using React to develop single-page applications (SPA) .

EDUCATION

Diploma - Computer Science

Sep 2021 - Feb 2023

Yaba college of Technology, Nigeria, Lagos

Currently on path to a Higher National Diploma in computer science.

A member of Nigeria Association of Computing Students (NACOS)
